

## Survey Party Chief

AWK Engineering is currently seeking a Survey Party Chief. Opportunity exists for advancement for self-motivated individuals with strong leadership skills. This position requires extensive experience with PennDOT & Pennsylvania Turnpike (PTC) projects.

- The candidate must be able to manage and be in responsible charge of multiple survey projects from the inception stage to project closure.
- A thorough working knowledge of the various PennDOT & Pennsylvania Turnpike (PTC) design manuals and specifications is required.
- Applicants should note that this position will sometimes require travel, both throughout state. Depending on the project requirements, travel periods may be extensive.

### Duties & Capabilities Include:

---

- *The Survey Party Chief is responsible for supervising the operation of conventional surveying equipment including but not limited to Total Stations, Levels, Data Collectors, RTK GPS, etc.*
- *The Survey Party Chief is responsible for the efficient and effective collection of survey data to be utilized in the preparation of plans and reports. This position requires the application of standard field techniques in carrying out a sequence of related measurement tasks.*
- *Exercise of judgment is required on details of work and in making preliminary selections and adaptations of alternatives.*
- *Using prescribed PennDOT methods, executes specific, field related assignments as requested by a Project Manager.*
- *Applies standard practices and techniques in specific situations, collects data, keeps proper notes, recognizes discrepancies in results.*
- *Responsible for the organization and cleanliness of the survey equipment, the equipment room and all survey vehicles.*

### Requirements:

*A.S. (B.S. a plus) in Surveying or Civil Engineering.*

- *5-10 years experience with the duties described above*

### Working Conditions:

Full-Time, 40 hours a week

Must be willing to occasionally travel to client work sites.

Location of Position: Pittsburgh Office
